Installation Instructions	Badge Reader Installing New Reader
Installation Instructions	Badge Reader Installing USB Extension Replacement
Programming the Universal Reader	<p>This program is intended for IT staff to assist in programming a badge on site.</p> <p>The process is not optimal as it takes time to perform the test and transfer to the machine.</p> <p>Program: you will be sent this link when needed.</p> <p>Programming a Badge Distributor IT</p> <p>Duplicate/Transfer Data to a new Reader</p> <p>Video: Preparing to Transfer Data at the machine</p>
SecuraStock Badge Testing and Programming	<p>We will be happy to test and program the badge reader; the below link will instruct you on how to submit a badge for testing.</p> <p>You must be logged into support@securstock.com for link to work.</p> <p>Badge Test Request Form.</p>
Will a badge work on the reader?	<p>There is a very small percentage of badges that cannot be programmed into the reader.</p> <p>For Distributors: you can test a badge at any machine that is not already programmed for a specific badge. This means that the factory pre-set has not been altered</p>
