

SECURACRIB

SecuraCrib is the world's cutting-edge storeroom management system. Designed with the features both users and companies need most— security, flexibility, reliability, and affordability— SecuraCrib is the first of its kind.

SECURACRIB IS SIMPLE

- Able to manage Unlimited number of storage locations
- Accommodates any range of products
- All components come with 3-year full warranty
- 30-second transaction from start to finish
- Easy product returns for immediate reuse

SECURACRIB IS SMART

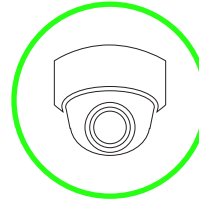

- Transactions can be monitored and reviewed from anywhere in the world
- Intuitive software
- Automatic electronic transaction notifications
- Advanced actionable analytics help pinpoint undesirable activity and usage
- Unlimited virtual, on-demand reporting

SECURACRIB IS SECURE

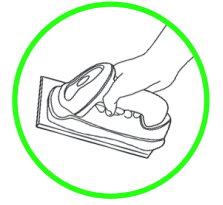

- Biometric authentication, Prox card, or PIN code required for access to storeroom
- Software resides where you decide
- Doesn't lose power, even if your building does
- Motion-sensing technology monitors and records all movements within storeroom

KIT INCLUDES

- Central processing machine
- Operating system
- Access control
- Aerial surveillance
- Input devices

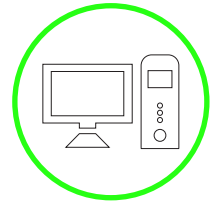

4 Motion-sensing cameras

User takes the wireless scanner and scans barcodes of products being removed or returned.

If not already bar-coded, labels can be printed from anywhere right from the system

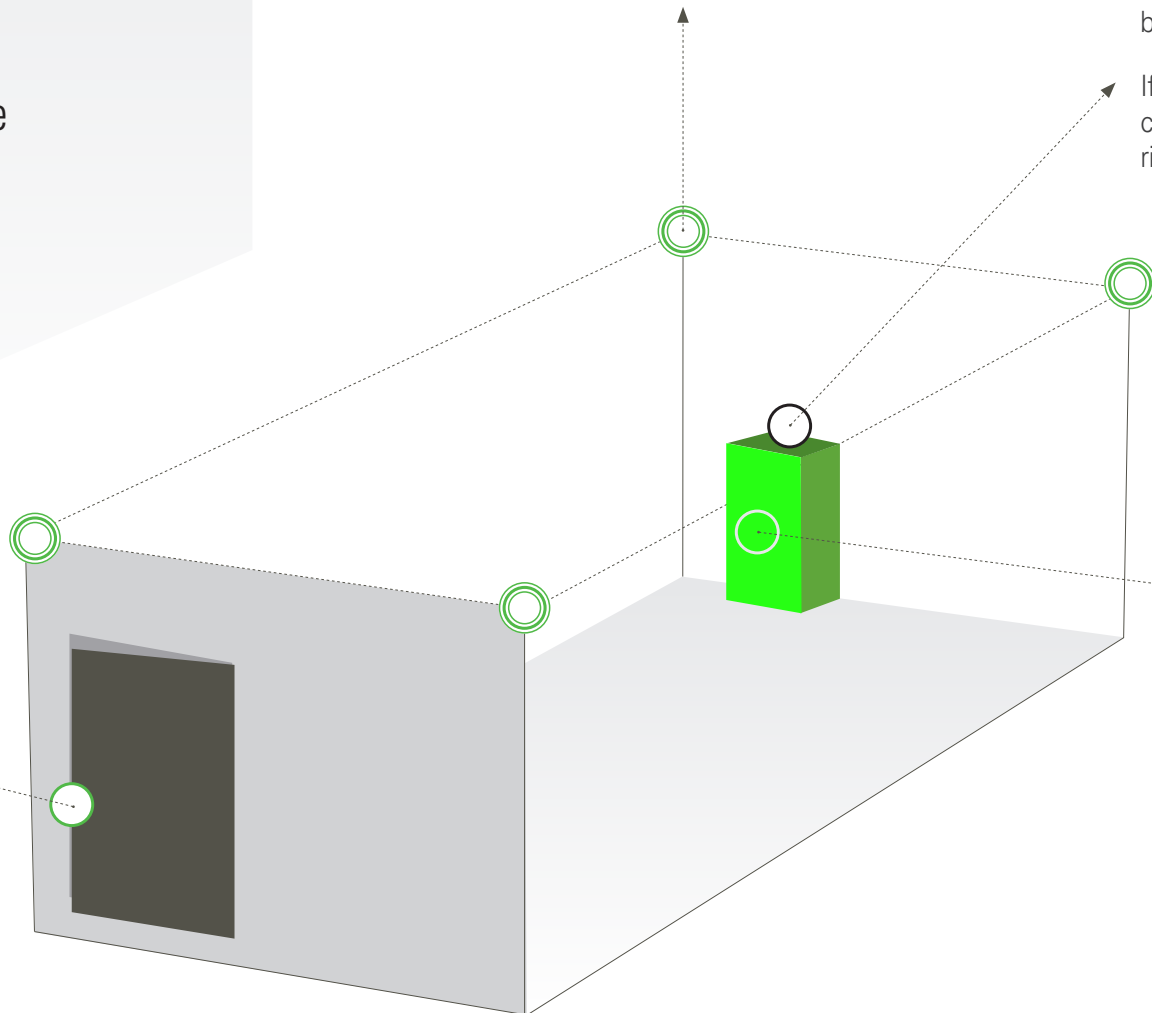

Central Processing Machine

Entry keypad and new lock controls are connected on the outside of the entry point.

Authorized user is granted access to room.

SECURACRIB

THINK OF IT AS A DECONSTRUCTED SECURASTOCK MACHINE
