SECURA CRIB

IMAGINE......

Imagine all non-direct materials managed by one connected, easy to use, easy to manage, easy to query system for the entire site

One place everyone can go to pull reports, look up items, request product

SecuraCrib at a glance

KIT INCLUDES

- Central processing machine
- Operating system
- Access control
- Aerial surveillance
- Input devices

4 Motion-sensing cameras

User takes the wireless scanner and scans barcodes of products being removed or returned.

If not already bar-coded, labels can be printed from anywhere right from the system

Central Processing Machine

Entry keypad and new lock controls are connected on the outside of the entry point.

Authorized user is granted access to room.

SecuraCrib Kit

- Self-contained machine. Wireless Scanner/Cradle and SecuraStock Monitor installed on top (30" wide x 36" high x 14" deep)

- Same electronic components as SecuraStock and software UI

    except:

- 4-32 ready-to-install Cameras with long cables to connect to machine

- Access Control Keypad
  with Electronic Security Lock
  (needs installation)

- Lock selected for each install,
  based on entry method

STEP 1:   LOG IN and WALK in OPEN DOOR(S)

Login via:

1. PIN Code
2. Finger (either hand)
3. Prox Card

SecuraCrib door lock will unlock

Open the door, walk in

STEP 2:   REMOVE SCANNER and SCAN ITEMS

Remove Barcode Scanner from the cradle on top of Machine

Scan item barcode for EACH item you are taking or returning (same as SecuraStock)
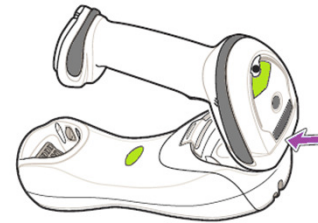

Check the label for "Scan Each="

Action features - Return, Item Urgently Needed, Undo Last Scan - attached to scanner handle via metal strip with cord reel

STEP 3:   RETURN SCANNER and REMOVE ITEMS

Put Scanner back into Cradle

Check the Monitor for correctness

Walk out and close the door; lock will re-engage
